

SYLLABUS AND CURRICULUM

As a CBSE-affiliated school, we adhere to the NCERT syllabus, which includes the CBSE curriculum, assessment scheme, and marking system. Our curriculum is carefully designed to ensure students' learning and promote their overall development. We recognize each student's abilities and encourage them to become more aware of the world around them. We focus on fostering logical thinking, positive attitudes, and aesthetic appreciation through a comprehensive school curriculum.

Our teaching methodology is highly effective, incorporating well-prepared lesson plans, teaching aids, concept-based activities, and the use of audio-visual tools and storytelling. We prioritize student engagement in the learning process to help them reach their full potential. We also provide the best resources available to make learning efficient and meaningful.

Our experienced mentors emphasize a concept-based approach to teaching, ensuring that students have a clear understanding of the material. We also place a strong emphasis on skill development, focusing on communication, writing, artistic, IT, and sports skills. Various activities, such as poem recitations, ASL, speeches, debates, declamations, slogan writing, essay writing, calligraphy, dance, drama, special day celebrations, poster making, drawing, and more, are organized to enhance these skills.

In addition, we offer regular robotics lab classes to spark students' interest in IT, and we organize various sports matches and tournaments to develop their athletic abilities. All skill development activities are scheduled in the school calendar.

We follow a continuous and systematic assessment plan that focuses on the comprehensive evaluation of students. Our assessment methods go beyond traditional paper-and-pen tests, aiming to eliminate exam-related anxiety. We assess students through quizzes, class presentations, ASL, project work, group activities, and more.

To ensure the effectiveness of our curriculum, our experienced administrators regularly monitor and manage the teaching and learning process, ensuring that we successfully achieve our goals.

CO-CURRICULAR ACTIVITIES

The primary goal of education at D.G.V. is to uplift the human spirit. To achieve this, a diverse range of activities is designed to explore and assess each student's individuality. Continuous efforts are made to help each pupil reach their fullest potential. D.G.V. is a space where we cultivate the next generation of citizens who will lead the nation. D.G.V. reflects the rich heritage of India's diverse culture, and students are encouraged to develop obedience, tolerance, and hidden talents. All activities are conducted at the inter-house level, allowing students to hone their skills, adapt to changing times, and excel in various co-curricular activities.
